Work Experience

Firefighter/EMT

February 2022 - Present

Seattle Fire Department

Seattle, WA

- Respond to 911 calls and mitigate wide range of emergencies such as structure fires, trauma/medical emergencies, and motor vehicle incidents.
- Safely extricate victims from fires, vehicles, and other entrapment scenarios.
- Provide CPR, BVM ventilation, and medication administration in accordance with KCEMS protocols.
- Attend regular company and battalion led drills - practicing laying hose, rescuing downed victims, searching structures, and fire suppression sometimes under live fire conditions.
- Maintain station and apparatus including maintenance of all tools/equipment.
- Work 24 hour shifts in close proximity with team members and develop crew cohesion.

Patient Care/Emergency Medical Technician

August 2021 - January 2022

Community Bridges, Central City Crisis Center

Phoenix, AZ

- Intake, assess, triage, and document incoming patients experiencing homelessness, substance abuse, and mental health crises. Successfully orient patients to treatment setting.
- Provide care that promotes patient dignity, independence, and privacy. Demonstrate respect for cultural diversity and patient boundaries
- Assist in maintaining a safe, orderly, and therapeutic environment.
- Recognize aggressive behavior, patients who are a danger to themselves/others or are in a crisis or medical emergency. Provide intervention, deescalation techniques, redirection, and/or physical restraint as appropriate.

Emergency Medical Technician

March 2017 - July 2021

American Medical Response

Seattle, WA

- Responded to EMS calls in a safe and timely manner, both in routine and priority modes.
- Provided patient assessment, care, stabilization, prioritization, and transportation.
- Used a variety of treatments on patients including, but not limited to, oxygen administration, immobilization and splinting, monitoring vital sign trend, and providing rescue ventilation and CPR.
- Identified when additional resources and advanced levels of care were needed.
- Ensured that thorough documentation was recorded for each call.
- Maintained a safe and clean environment in the ambulance by following strict cleaning protocols.
